JUNIPER

Juniper Booking Engine:
the leading solution for the travel industry

Juniper TravelTech is the division of Juniper Travel Technology that encompasses the industry's **leading booking engine**, the Juniper Booking Engine. Discover what our **disruptive technology** can bring to your **business**:

- Buy and sell tourist products such as **accommodation, flights, services and transfers, car rental, circuits, vacation packages, cruises,** etc.

- Automate the **processes** and **communications** of your different **sales channels**.

- Manage online-**inventory** of your **own product** and **external-supplier product**.

- **Optimize your profits** by adjusting your prices and offers according to market conditions.

- **Show** your **own product** and that of **external suppliers on your website** simultaneously, increasing the variety of your offer.
